**Computer-assisted orthopaedic surgery
and minimally invasive surgery**

8 – 9th April 2011

**Congress centre, Hotel Voroněž I,
Křížkovského 47, Brno, Czech Republic**

Held under the auspices of the Czech Society
for Orthopaedics and Traumatology

OFFER FOR PARTNERS AND EXHIBITORS

Dear business friends,

In 2011, the Society for Computer Assisted Orthopaedic Surgery and Miniinvasive Surgery – CAOS-MIS.CZ and the expert section of the Czech Society for Orthopaedics and Traumatology (ČSOT) organize the 5th International Congress in Brno.

The organization - in co-operation with the congress preparatory board - was entrusted with the TA-SERVICE s.r.o. agency.

As an indivisible part, every congress includes exhibitions and specialized company presentations, which we see as a component of professional development of doctors and nurses. With regard to the past congresses organized in this field, we believe that the event will be of big interest for Czech medics, which will be further enhanced by inviting medics and companies from the neighbouring countries.

We also intend to organize a rich social and accompanying programme during the congress, in which companies may take part.

Thus, we believe we will provide a good offer.

The event will take place from April 8-9, 2011, in the Congress Centre of Hotel Voroněž I, Brno.

Your company might as well have supported the CAOS-MIS.CZ in the past, perhaps planning to continue this activity further on. The Congress Centre offers many possibilities to satisfy various requirements for space and presentations. Please find enclosed a detailed offer.

Dear business friends, it is obvious that a continuing professional development is impossible without your participation. We believe that we can combine your interests with our intention and that we will be able to offer you a chance to present yourselves not only on the national level, but also to other European countries.

If you decide to choose any of our offers, we will surely spend two days immersed in professional information in April 2011.

We are looking forward to your decision, which we expect by the end of 2010.

Yours sincerely,

Prof. Miloš Janeček, MD, PhD
